D. USE OF SERVICE AND FACILITIES (Continued)

3. Use of Subscriber Service

Subscriber telephone service, as distinguished from public and semipublic telephone service, is furnished only for use by the subscriber, his family, employees or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service. At such locations, however, service may be installed, provided the instrument is so located that it is not accessible for public use.

For rates applicable to these facilities see the mileage charge section of the General Exchange Service Tariff.
